

Panagiotis (Panos) Zografos

SOFTWARE ARCHITECT · TECHNICAL CONSULTANT

Athens, Greece

☎ (+30) 697-767-6048 | ✉ pzograf@gmail.com | 🌐 panoszografos

Summary

Software Architect with a proven track record of designing scalable, cloud-native enterprise systems for major European organisations across the public and private sectors. Deep expertise in Java ecosystems and cloud microservices architecture, with a strong technical vision across the full development lifecycle. Technical leader driving robust engineering standards while maintaining the hands-on proficiency required for successful full-stack delivery.

Skills

Architecture & Design	Microservices, Event Sourcing, Microfrontends, cloud-native enterprise systems
Cloud & Infrastructure	Microsoft Azure
Backend	Java, Spring, Jakarta EE, Node.js, Golang
Frontend	JavaScript, TypeScript, React, Redux, Vue.js
Data & Streaming	Apache Kafka, Oracle, PostgreSQL, Elasticsearch, MongoDB, Redis
DevOps & Automation	Docker, Kubernetes, Helm, ArgoCD, Jenkins, Bash
AI	AI-assisted development integrated into daily delivery workflow; GenAI application patterns
Methodologies	Agile (Scrum, Kanban)

Experience

European Patent Office

Remote

DEPLOYED TECHNICAL EXPERT & SENIOR SOFTWARE ENGINEER (FREELANCE)

Jul. 2023 - Present

- Rescued a stalled project and moved it to production within 6 months by resolving critical bugs and deployment bottlenecks.
- Act as the primary technical bridge between EPO and the Greek National Patent Office (OBI), overseeing the customisation and deployment of complex cloud-native microservices.
- Architect technical solutions and system bridges to align EPO software capabilities with OBI's infrastructure.
- Following delivery of the OBI platform, now building new applications for EPO as Senior Full Stack Engineer.
- Key technologies: Azure Cloud, Microservices, Microfrontends, Java, Spring, React, Redux, Camunda, Kubernetes.

Volvo Cars Corporation

Remote

SENIOR CLOUD PLATFORM ENGINEER & APACHE KAFKA SME (FREELANCE)

Oct. 2021 - Oct. 2024

- Designed and implemented a corporate-wide "Kafka-as-a-Service" cloud platform to modernise enterprise data streaming capabilities.
- Evolved the platform into a highly scalable and reliable service, capable of accommodating the ever-changing needs of a large organisation.
- Served as an Apache Kafka SME, defining migration frameworks and guiding engineering teams during the transition from legacy systems to the new platform.
- Worked as a Full Stack Engineer to incorporate the platform into existing applications that offered integration services.
- Key technologies: Azure Cloud, Kubernetes, Apache Kafka, Java, Spring, Node.js, TypeScript, Vue.js.

Intrasoft International S.A. (now Netcompany-Intrasoft)

Greece

LEAD SOFTWARE ENGINEER

Oct. 2019 - Oct. 2021

- Built and led an engineering team from the ground up to consistently deliver complex software solutions under strict deadlines.
- Architected scalable enterprise solutions for EU projects, from initial build through ongoing maintenance.
- Modernised CI/CD pipelines to deploy code to internal and client environments in a continuous, fully automated manner.
- Analysed system requirements and translated them to task specifications; provided technical assessments and effort estimations for large-scale development tasks.
- Implemented critical parts of the application and guided DevOps with continuous integration and delivery.
- Key technologies: Jakarta EE, Java, Oracle, Elasticsearch.

Trasys Greece - Atos Belgium N.V/S.A.

Greece

SENIOR SOFTWARE ENGINEER

Apr. 2017 - Oct. 2019

- Prototyped and implemented advanced synchronisation patterns, significantly improving overall system responsiveness and throughput.
- Owned the end-to-end design and delivery of critical system components, ensuring alignment with complex business specifications and performance requirements.
- Developed and maintained applications based on specifications; participated in code reviews and supported testing and troubleshooting in production.
- Key technologies: Java EE 7, Java, Apache Kafka, Event Sourcing, Golang.

OpenBet Hellas Ltd.

Greece

SENIOR SOFTWARE ENGINEER

Dec. 2015 - Apr. 2017

- Built and maintained betting and gaming applications for clients such as William Hill, Paddy Power, Ladbrokes and Sky Bet.
- Analysed mathematical specifications and converted them into software requirements.
- Key technologies: Java, Apache Tomcat, Informix, Docker.

Rated People Ltd.

Greece

SENIOR SOFTWARE ENGINEER

Jul. 2014 - May 2015

- Early adopter of the Microservices paradigm, Docker and AWS.
- Developed and maintained application features for a fast-growing online marketplace, ensuring high performance and scalability.
- Key technologies: Java, AWS, Docker, Spring Boot, Mule ESB.

Earlier Engineering Roles

Greece - UK

SOFTWARE ENGINEER

2005 - 2014

- Software engineering positions, progressing from junior to senior roles.

Education

University of Sussex

Brighton, UK

MSC IN INTELLIGENT SYSTEMS

2003 - 2004

- Artificial Intelligence and cognitive modelling; robotics and autonomous systems.
- Data science, machine learning and natural language processing.
- Computational biology and consciousness science.

National Technical University of Athens

Athens, Greece

DIPLOMA IN COMPUTER AND ELECTRICAL ENGINEERING

1997 - 2003

- Computer Science; Software Engineering; Computer Architecture.
- Communications, Electronics and Information Engineering.
- Electromagnetics, Electro-optics and Electronic Materials; Signals, Control and Robotics.

Certifications

Jun. 2026 **Microsoft Certified: Azure Administrator Associate (AZ-104)**, Microsoft

Sep. 2023 **Microsoft Certified: Azure Fundamentals (AZ-900)**, Microsoft
