

Panagiotis (Panos) Zografos

SOFTWARE ARCHITECT · TECHNICAL CONSULTANT

Ethnikis Antistaseos 99, 14671, Nea Erithrea, Greece

☎ (+30) 697-767-6048 | ✉ pzograf@gmail.com | 📅 August 31st, 1979 | 🌐 panoszografos

Summary

Highly experienced Software Architect and Engineer with a proven track record designing scalable, cloud-native enterprise systems. Deep expertise in Java ecosystems and cloud microservices architecture, combined with a strong technical vision across the full development lifecycle. As a technical leader, I specialize in driving robust engineering standards, while maintaining the hands-on proficiency required to ensure successful full-stack delivery.

Skills

Architecture & Design	Microservices, Event Sourcing, cloud-native enterprise systems
Cloud & Infrastructure	Microsoft Azure (multiple years of building and architecting solutions)
Artificial Intelligence	Daily operational use of Claude Code; GenAI design patterns and architectural trends
Backend	Java (Spring, Java EE), Node.js, Golang
Frontend	JavaScript, TypeScript, React, Redux, Vue.js, Microfrontends
Data & Platforms	Apache Kafka, Oracle, PostgreSQL, Elasticsearch, MongoDB, Redis
DevOps & Automation	Docker, Kubernetes, Bash, Helm, ArgoCD, Jenkins
Methodologies	Agile (Scrum, Kanban)
Leadership	Leading cross-functional teams, project delivery in dynamic environments
Languages	Greek (native), English (professional working proficiency), French (basic)
Other	Filming/Photography (attended Stavrakos School of Cinema and Television)

Certifications

Jun. 2026 - Jun. 2027	Microsoft Certified: Azure Administrator Associate (AZ-104) , Microsoft	Credential ID: B6ABF0832B13CCB4
Sep. 2023	Microsoft Certified: Azure Fundamentals (AZ-900) , Microsoft	Credential ID: 1C50B1BD6FD224

Experience

European Patent Office (EPO)

TECHNICAL EXPERT & SENIOR SOFTWARE ENGINEER (FREELANCE)

Jul. 2023 - Present

- Acting as the primary technical bridge between EPO and the National Patent Office (OBI - Greece), overseeing the customization and deployment of complex cloud-native microservices.
- Architect technical solutions and system bridges to align EPO software capabilities with OBI's infrastructure.
- Post-delivery of the OBI platform, currently engaged as a Senior Full Stack Engineer for EPO, building new applications.
- Successfully rescued a stalled project and moved it to production within 6 months by resolving critical bugs and deployment bottlenecks.
- Key technologies: Azure Cloud, Microservices, Microfrontends, Java, Spring, React, Redux, Camunda, Kubernetes.

Volvo Cars Corporation

SENIOR CLOUD PLATFORM ENGINEER & APACHE KAFKA SME (FREELANCE)

Oct. 2021 - Oct. 2024

- Designed and implemented a corporate-wide "Kafka-as-a-Service" cloud platform to modernize enterprise data streaming capabilities.
- Served as an Apache Kafka SME, defining migration frameworks and guiding engineering teams during the transition from legacy systems to the new platform.
- Worked as a Full Stack Engineer to incorporate the platform to existing applications that offered integration services.
- Built a highly scalable and reliable platform that can accommodate the ever-changing needs of a big organization.
- Key technologies: Azure Cloud, Kubernetes, Apache Kafka, Java, Spring, NodeJS, TypeScript, VueJS.

Intrasoft International S.A.

Greece

LEAD SOFTWARE ENGINEER

Oct. 2019 - Oct. 2021

- Led a team of engineers in building and maintaining solutions for EU projects, architecting scalable enterprise solutions.
- Analysed system requirements and translated them to task specifications; provided technical assessments and effort estimations for large-scale development tasks.
- Implemented critical parts of the application and guided DevOps with continuous integration and delivery.
- Built and led a high-performing engineering team from the ground up, to consistently deliver complex software solutions under strict deadlines.
- Modernized CI/CD pipelines to deploy code to internal and client environments in a continuous, fully automated manner.
- Key technologies: Jakarta JEE, Java, Oracle, Elasticsearch.

Trasys Greece - Atos Belgium N.V/S.A.

Greece

SENIOR SOFTWARE ENGINEER

Apr. 2017 - Oct. 2019

- Developed and maintained applications based on specifications; participated in code reviews and supported testing and troubleshooting in production.
- Owned the end-to-end design and delivery of critical system components, ensuring alignment with complex business specifications and performance requirements.
- Prototyped and implemented advanced synchronization patterns, resulting in a significant measurable boost to overall system responsiveness and throughput.
- Key technologies: JEE7, Java, Apache Kafka, Event Sourcing, Golang.

OpenBet Hellas Ltd.

Greece

SENIOR SOFTWARE ENGINEER

Dec. 2015 - Apr. 2017

Rated People Ltd.

UK

SENIOR SOFTWARE ENGINEER

Jul. 2014 - May 2015

- Early adopter of the Microservices paradigm, Docker and AWS.

Additional experience before May 2015 omitted for brevity.

Education

Sussex University

UK

MSC IN INTELLIGENT SYSTEMS

2003 - 2004

- Artificial Intelligence and cognitive modelling; robotics and autonomous systems.
- Data science, machine learning and natural language processing.
- Computational biology and consciousness science.

National Technical University of Athens

Athens, Greece

DIPLOMA IN COMPUTER AND ELECTRICAL ENGINEERING

1997 - 2003

- Computer Science; Communication, Electronic and Information Engineering.
- Electromagnetics, Electro-optics and Electronic Material; Signals, Control and Robotics.
